Department of Occupational Safety and Health (Home) 222

The Globally Harmonised System of Classification and Labelling of Chemicals
The "Globally Harmonized System of Classification and Labelling of Chemicals (GHS)", that addresses classification of chemicals, labelling of chemicals and provision of Safety Data Sheets (SDS) to user has been promoted by the United Nation to be voluntary adopted by 2008.

Chemical Weapon Convention (CWC)
The Chemical Weapons Convention (CWC) is an arms control agreement which outlaws all development, production, acquisition, stockpiling, transfer, and use of chemical weapons. Malaysia had ratified this Convention and has recently enacted the CWC Act 2005.

Control Banding
Control banding is a useful tool of good management that is simple to use in assessing risks and identifying action to control risks. This simple step-by-step approach will be helpful particularly to SMEs as an alternative to conducting full CHRA.

New Submission: Rejected

The screenshot shows the CIMS homepage with a blue header bar. On the left, there's a logo for JKKP (Jabatan Kemajuan Kerja Peringkat Negeri) and a user profile for 'Ahmad (Staff 1) JKKP Head of Section'. The main navigation menu includes HOME, INVENTORY, SUBMISSION, REPORTS, PROFILE, and LOGOUT. Below the menu, there's a heading 'Department of Occupational Safety and Health (Home) 222' with two images: one of a forklift in a warehouse and another of hands working with documents. To the right, there's a sidebar titled 'Notification' with a red box highlighting the 'Rejected' section. The 'Rejected' section shows 12 items. Further down the page, there are boxes for 'Globally Harmonised System of Classification and Labelling of Chemicals', 'Chemical Weapon Convention (CWC)', and 'Control Banding', each with a brief description. At the bottom, there's a note about Admin Module changes and a copyright notice for DOSH MALAYSIA 2009.

The Globally Harmonised System of Classification and Labelling of Chemicals
The "Globally Harmonised System of Classification and Labelling of Chemicals (GHS)", that addresses classification of chemicals, labelling of chemicals and provision of Safety Data Sheets (SDS) to user has been promoted by the United Nation to be voluntary adopted by 2008.

Chemical Weapon Convention (CWC)
The Chemical Weapons Convention (CWC) is an arms control agreement which outlaws all development, production, acquisition, stockpiling, transfer, and use of chemical weapons. Malaysia had ratified this Convention and has recently enacted the CWC Act 2005.

Control Banding
Control banding is a useful tool of good management that is simple to use in assessing risks and identifying action to control risks. This simple step-by-step approach will be helpful particularly to SMEs as an alternative to conducting full CHRA.

- Select report type, level type, chemical type, state and year. Click submit button when complete.

A screenshot of the CIMS system interface. At the top, there's a blue header bar with the JKKP logo, user information ('Ahmad (Staff 1) JKKP Head of Section'), and navigation links: HOME, INVENTORY, SUBMISSION, REPORTS (which is highlighted with a red box), PROFILE, and LOGOUT. The main content area has a title 'Reports :: Submission'. Below it, there are several dropdown menus and input fields for filtering reports: 'Reports Type', 'Level Type', 'Chemical Type', 'Status', 'State' (with options like Johor, Kadah, Kelantan, Melaka), and 'Year' (set to 2011). There are also 'Add' and 'Remove' buttons for managing state filters. At the bottom right of this section are 'Submit' and 'Cancel' buttons.

- Select report type, level type, chemical type, status, state and year. Click submit button when complete.

Profile

A screenshot of the CIMS system interface. The top navigation bar is identical to the previous screenshot. The main content area has a title 'Change Password'. It contains three input fields with validation requirements: 'Current Password *', 'New Password *', and 'Retype Password *'. Below these fields is a 'Cancel' button. A red box highlights the entire set of password input fields.

- Change password (if required).
