## Login

## Home

The screenshot shows the CIMS Home page. At the top left is the logo of the Ministry of Health (JKKP) with the name "Chairul (Staff 2) JKKP Officer". The top right features the text "Chemicals Information Management System". The navigation bar includes links for HOME, INVENTORY, SUBMISSION, REPORTS, PROFILE, and LOGOUT. A red box highlights the "HOME" link. Below the navigation is a section titled "Department of Occupational Safety and Health (Home) 222" featuring three images: a forklift in a warehouse, a person working at a desk, and several bags of chemicals. To the right is a sidebar titled "Notification" with sections for "New Submission", "Renewal Submission", and "New Chemical". Each section lists waiting, acknowledged, and rejected items. A red box highlights the "New Submission" section. At the bottom right is a cartoon character holding a magnifying glass.

Home screen for officer

This screenshot shows the CIMS interface for an officer. It features a sidebar on the left titled "Notification" with sections for "New Submission", "Renewal Submission", and "New Chemical". Each section displays a list of items with counts: Waiting for Checking, Acknowledged, and Rejected. A red box highlights the "New Submission" section. The main content area is currently empty.

## New Submission: Waiting for Checking

The screenshot shows the 'New Submission :: Checking' page. On the left, a sidebar lists submission categories: All Submission, List, New Submission, All List, Waiting for Checking (which is highlighted with a red box), Acknowledge List, Rejected List, Renewal Submission, All List, Waiting for Checking, Acknowledge List, and Rejected List. The main area displays a table titled 'New Submission :: Checking' with the following data:

Submission ID	Company Name	Chemical Type	Submission Date	Status	Activity
DOSH/2011/0000054	Manufacturer 2 Sdn Bhd	Substance	01-03-2011	Waiting for Checking	
DOSH/2011/0000035	-	Mixture	16-02-2011	Waiting for Checking	
DOSH/2011/0000026	Importer A Sdn Bhd	Mixture	07-02-2011	Waiting for Checking	

At the bottom of the table, there are search fields for Submission ID, Company Name, Chemical Type, Status, and a link to First, Previous, Next, and Last entries.

The Globally Harmonised System of Classification and Labelling of Chemicals  
The "Globally Harmonised System of Classification and Labelling of Chemicals (GHS)", that addresses classification of chemicals, labelling of chemicals and provision of Safety Data Sheets (SDS) to user has been promoted by the United Nation to be voluntary adopted by 2008.

Chemical Weapon Convention (CWC)  
The Chemical Weapons Convention (CWC) is an arms control agreement which outlaws all development, production, acquisition, stockpiling, transfer, and use of chemical weapons. Malaysia had ratified this Convention and has recently enacted the CWC Act 2005.

Control Banding  
Control banding is a useful tool of good management that is simple to use in assessing risks and identifying action to control risks. This simple step-by-step approach will be helpful particularly to SMEs as an alternative to conducting full CHRA.

## Chemical :: View

Chemical Details		
<b>Chemical Name</b>	1, 1, 2-Trichloro-1, 2, 2-trifluoroethane	
<b>IUPAC Name</b>	-	
<b>CAS No</b>	76-13-1	
<b>Weight</b>	0.0	
<b>Formula</b>	-	
<b>Mol</b>	-	<b>Mol</b>
<b>Structure</b>	-	<b>Structure</b>

Permissible Exposure Limits (PEL)		
<b>Malaysia</b>	TWA: 1000 ppm (7670 mg/m <sup>3</sup> )	
<b>Recommendation</b>	TWA: 1000 ppm (7670 mg/m <sup>3</sup> ) STEL:1250 ppm	
<b>Justification</b>	A chronic inhalation study in rats (6 hours/day, 5 days/week, 24 months) indicated a NOEL of 2000 ppm. Several deaths have been reported for exposure to 1,1,2-trichloro-1,2,2-trifluoroethane in occupational settings, which were thought to be due, in most cases, to cardiac arrhythmias. Pharmacokinetic studies with human volunteers who breathed 1,1,2-trichloro-1,2,2-trifluoroethane concentrations in the range of 258 to 1004 ppm for four hours indicated mean peak blood levels of 0.69, 1.2 and 3.1 ?g/ml and elimination by exhalation with mean half-lives in a three-compartment model of 0.22, 2.3, and 29 hours. NIOSH has established a recommended exposure limit (REL) of 1000 ppm and 1250ppm as short-term exposure limit (STEL) based on the studies. We concur to this value.	

BEI		
<b>Recommendation</b>	-	
<b>Justification</b>	-	

VAM		
<b>Descriptions</b>	Gas Chromatography; GC/FID method reference: OSHA Analytical Method (OSHA 113) method classification: Fully Validated [6]  NIOSH 1020 GAS CHROMATOGRAPH, FID partially [7]	

Properties and Uses			
<b>Properties Descriptions</b>	On contact with hot surfaces or flames this substance decomposes forming toxic and corrosive gases. Reacts violently with powdered metals causing fire and explosion hazard. Attacks magnesium and its alloys [2]		
<b>Properties Appearance</b>	Colorless to water-white liquid [1]		
<b>BptC</b>	48 [2]	<b>MptC</b>	-36 [2]
<b>Odour</b>	An odor like carbon tetrachloride at high concentrations [1]	<b>VAP Pressure</b>	36 kPa at 20°C [2]
<b>Solubility</b>	water: 0.02, g/100 ml at 20°C [2]		
<b>Uses</b>	Used as refrigerant in low capacity centrifugal chiller packaged units (low pressure, high volume systems) [3]

## Profile

The screenshot shows the CIMS Profile page. At the top, there is a blue header bar with the JKPP logo, the user name 'Khairul (Staff 2) JKPP Officer', and navigation links: HOME, INVENTORY, SUBMISSION, REPORTS, PROFILE (which is highlighted with a red box), and LOGOUT. Below the header, there are two main sections: 'Profile' on the left and 'Change Password' on the right. The 'Profile' section contains a 'Change Password' button, which is also highlighted with a red box. The 'Change Password' section has three input fields: 'Current Password \*', 'New Password \*', and 'Retype Password \*'. A 'Cancel' button is located at the bottom right of this section. A large red box surrounds the entire 'Change Password' form.

- Change password (if required).
